MARRIAGES, BIRTHS AND DEATHS

Extracts from the JOURNAL OF JOHN DYER, OF DYERSTOWN, BUCKS COUNTY, PENNSYLVANIA, 1763-1805, a copy of which is in possession of The Bucks County Historical Society's Library transcribed from a manuscript copy in the library of the Historical Society of Pennsylvania.

The JOHN DYER who kept this Journal over a period of forty-two years, was a grandson of John Dyer, the immigrant of whom General W. W. H. Davis writes in his "History of Bucks County, Second Edition, Volume I., Chapter XXIV. Plumstead. p. 381:

"The first to encroach upon the retirement of Thomas Browne was Joan Dyer, a minister among Friends, an immigrant from Gloucestershire, England, with his family, 1712. He first settled in Philadelphia, then came out to what was known as the "five-mile mill" on the York Road, and thence removed to the woods of Plumstead. On the 16th of June, 1718, he purchased one hundred and fifty-one acres of Cephas Child, including the Dyer property, Dyerstown. He is said to have likewise purchased the improvements of Thomas Brown, who removed farther back into the woods about where Plumstead Meeting House now stands. The Dyer property only passed out of the family a few years ago, when Doctor John Dyer, a descendant, removed to Philadelphia..... He died the 31st of the 11th month, 1738, and was buried at the Friends' Meeting House in Plumstead. He owned in all about six hundred acres. When John Dyer came into the township, wild animals were so plenty the settlers took their guns with them to Meeting and beavers built their dams across Pine Run. The Indians were numerous, but friendly."

This Journal is printed in the "Publications of the Genealogical Society of Pennsylvania" for January, 1906, and appended thereto is the

1. The first part of the document is a list of names and dates, arranged in a table-like format. The names are written in a cursive script, and the dates are in a more formal, printed style. The list appears to be a record of some kind, possibly a ledger or a list of transactions.

2. The second part of the document is a series of paragraphs of text, also written in cursive. The text is somewhat faded and difficult to read, but it appears to be a narrative or a report of some kind. The paragraphs are separated by small gaps, and the overall layout is somewhat irregular.

3. The third part of the document is a list of names and dates, similar to the first part. The names are written in a cursive script, and the dates are in a more formal, printed style. The list appears to be a record of some kind, possibly a ledger or a list of transactions.

4. The fourth part of the document is a series of paragraphs of text, also written in cursive. The text is somewhat faded and difficult to read, but it appears to be a narrative or a report of some kind. The paragraphs are separated by small gaps, and the overall layout is somewhat irregular.

5. The fifth part of the document is a list of names and dates, similar to the first part. The names are written in a cursive script, and the dates are in a more formal, printed style. The list appears to be a record of some kind, possibly a ledger or a list of transactions.

6. The sixth part of the document is a series of paragraphs of text, also written in cursive. The text is somewhat faded and difficult to read, but it appears to be a narrative or a report of some kind. The paragraphs are separated by small gaps, and the overall layout is somewhat irregular.

7. The seventh part of the document is a list of names and dates, similar to the first part. The names are written in a cursive script, and the dates are in a more formal, printed style. The list appears to be a record of some kind, possibly a ledger or a list of transactions.

8. The eighth part of the document is a series of paragraphs of text, also written in cursive. The text is somewhat faded and difficult to read, but it appears to be a narrative or a report of some kind. The paragraphs are separated by small gaps, and the overall layout is somewhat irregular.

9. The ninth part of the document is a list of names and dates, similar to the first part. The names are written in a cursive script, and the dates are in a more formal, printed style. The list appears to be a record of some kind, possibly a ledger or a list of transactions.

10. The tenth part of the document is a series of paragraphs of text, also written in cursive. The text is somewhat faded and difficult to read, but it appears to be a narrative or a report of some kind. The paragraphs are separated by small gaps, and the overall layout is somewhat irregular.

- 1797, 9mo., 24 - CAPT FARHUSON Informed us of the most deaths, yesterday in
in the City that ever was known this season of the
Rageing fevour. Dreadful times in philadelphia, most
of the people moved, moved out of the City for fear

The first of these is the
 fact that the system is
 not self-sufficient. It
 requires a constant supply
 of raw materials and
 energy. This is a major
 problem for the system
 as a whole. The second
 problem is the fact that
 the system is not
 flexible. It is unable to
 adapt to changing
 conditions. This is a
 major problem for the
 system as a whole. The
 third problem is the fact
 that the system is not
 efficient. It wastes a
 great deal of energy and
 resources. This is a
 major problem for the
 system as a whole.

The fourth problem is the
 fact that the system is
 not secure. It is vulnerable
 to attack from the outside.
 This is a major problem
 for the system as a whole.
 The fifth problem is the
 fact that the system is
 not sustainable. It cannot
 continue indefinitely. This
 is a major problem for
 the system as a whole.
